NIHR Academic Clinical Lecturer in General Surgery or Vascular Surgery School of Medicine

Do you want the opportunity to develop your existing academic experience in a supportive and inspirational environment where you can establish your clinical academic career?

Applications are invited for a NIHR Integrated Academic Training Clinical Lecturer post in either General Surgery or Vascular Surgery in the NIHR Research theme Acute Care. The post is available for up to four years according to the clinical training needs of the successful candidate to obtain a CCT. You will join the vibrant Integrated Academic Training programme at Leeds which provides a supportive research environment to develop independent, novel research alongside your clinical specialist training leading to full registration within the specialty programme and CCT. You will be awarded a training contract with the Regional Postgraduate Dean in the specialist registrar/specialty trainee grade (or equivalent), an honorary contract with the appropriate NHS Trust and you must already be at a minimum level of ST3.

The successful candidate will spend 50% of the appointed period continuing or establishing a new research programme with 50% of the appointed period allocated to appropriate clinical training. There are opportunities to align to current research interests within ongoing programmes of research in **General Surgery** (Leeds Institute of Medical Research at St James's) or **Vascular Surgery** (Leeds Institute of Cardiovascular and Metabolic Medicine) in the School of Medicine. You will undertake internationally regarded research and have the benefit of senior academic support in making grant applications, as well as independent mentoring on career progression. You will also share responsibility for delivering high quality undergraduate and postgraduate teaching programmes.

You will hold (or have submitted) your PhD/MD at the time you apply and will provide evidence that you have been fully awarded your degree by the time you take up the post. The post will be located in either the Leeds Institute of Medical Research at St James's (LIMR) or Leeds Institute of Cardiovascular and Metabolic Medicine (LICAMM), University of Leeds and NHS Trust Premises including St James's University Hospital and Leeds General Infirmary.

The successful applicant must be in post by 31 March 2020

What does the role entail?

As an NIHR Clinical Lecturer it is envisaged that 50%FTE of your time will be spent in innovative and scholarly research (including up to one session teaching) and for 50% FTE you will undertake appropriate clinical training.

Research;

You will be expected to achieve and maintain an active research portfolio both producing regular publications and developing the skills required to write successful research grant and Intermediate, Advanced or Clinician Scientist Fellowship applications. Your research output would be expected to be of international quality as judged by the Research Excellence Framework 2014 standards. You would be expected to seek external peer review funding to support your research. There may be flexibility within the particular clinical training program to allow substantial periods of research without clinical commitment rather than combining both in the working week.

Research opportunities are in **Virtual Reality for Surgical Training in Acute Care**. The research will exploit the expertise in virtual reality training in Leeds to develop the next generation of surgical/anaesthetic trainees who are expert in the clinical application of virtual reality to acute care. Virtual reality simulation transcends the surgical and anaesthetic specialties and offers trainees the opportunity to undertake cutting edge research that has direct clinical application. The ability to train in a non-pressurised environment and to make mistakes without repercussion, makes virtual reality an ideal training format for the acute surgical setting. The post holder will have the opportunity to work at the forefront of virtual reality technology with cross-cutting links between academic surgery, psychology, and medical education to develop new models for training the next generation of emergency surgeons.

Teaching;

You will be expected to contribute to the organisation and delivery of undergraduate teaching throughout your clinical and research years. The administrative, preparation time and actual teaching would not exceed the equivalent of one session each week. During clinical periods the person would be expected to undertake teaching and training commitments as expected of other Specialist Registrars in training.

Clinical Activity;

You will enter into an appropriate year within the Specialist Training Programme. Rotations include posts in Leeds and other regional centres and units to meet the full current Royal College curriculum.

[Type here]

What will you bring to the role?

As a NIHR Academic Clinical Lecturer;

You must demonstrate appointability under the NIHR Clinical Lectureship Academic Person Specification and the appropriate Royal College Clinical Person Specification or, in the absence of a clinical person specification, the appropriate areas of the Clinical Curriculum.

ACADEMIC PERSON SPECIFICATION - **APPENDIX 1**

General Surgery CLINICAL PERSON SPECIFICATION - **APPENDIX 2A**

Vascular Surgery CLINICAL PERSON SPECIFICATION - **APPENDIX 2B**

For further background to the post please see **APPENDIX 3**

As a qualified doctor you should obtain periodic registration with the GMC. You will be required to maintain such registration so long as you remain employed with the University of Leeds, confirming to your line manager that renewal has been carried out as required by the relevant professional organisation. You should produce documentation giving evidence of your registration upon request.

Please note: **University of Leeds terms and conditions of employment will apply**

How to apply

You can apply for this role online; more guidance can be found on our [How to Apply](#) information page. Applications should be submitted by **23.59** (UK time) on the advertised closing date.

Applications should include the following:

- A Curriculum Vitae
- A NIHR Supplementary Questions for Candidates form – **APPENDIX 4**
- A Supporting Statement addressing the academic and clinical person specifications
