

UNIVERSITY OF LEEDS

CANDIDATE BRIEF

Apprentice Mechanical Engineering Technician, Faculty of Engineering

Starting salary: £16,460 p.a.

Reference: ENGFO1139

The successful candidate will be required to start work by the week commencing 10 September 2019 at the latest, due to the requirements of the college course

Apprentice Mechanical Engineering Technician

Faculty of Engineering

Do you have an aptitude for and an interest in mechanical engineering? Do you want to begin your career as a technician in one of the top Universities in the country?

We are looking for an apprentice, eager to start a career as Mechanical Engineering Technician.

As part of our apprenticeship technical training scheme you will receive hands on training within our workshops, and be placed on an appropriate Engineering Mechanical apprenticeship course at levels 2 and 3, offered by a Bradford college. You will be mentored by one of our senior technicians. On completion of your training you will have an ideal skill set to go on to a successful career as a technician, having learnt several disciplines of mechanical engineering, manufacture and assembly.

What does the role entail?

As an Apprentice Mechanical Engineering Technician, your main duties will include:

- Precision machining components using conventional machine tools, including turning, milling, drilling, boring and grinding;
- Assisting academic staff and senior technicians in the design of research and teaching equipment;
- Assembling, commissioning and testing teaching and research equipment in a mechanical engineering environment;
- Portable Appliance Testing of equipment and keeping appropriate records;
- Taking part in regular team meetings with technicians;
- Working in accordance with health and safety procedures, hazard, risk, COSHH assessments and local policies and procedures;
- Undertaking manual handling of laboratory equipment and movement of gas cylinders, using correct manual handling processes;
- Engaging fully with the relevant training courses for the apprenticeship and actively engaging in learning during the course of your day-to-day role.

These duties provide a framework for the role and should not be regarded as a definitive list. Other reasonable duties may be required consistent with the grade of

the post.

What will you bring to the role?

As an Apprentice Mechanical Engineering Technician, you will have:

- 5 GCSEs grade A*-C (or equivalent qualifications) including Mathematics and English, plus either Science or Design Technology subjects;
- Evidence of an aptitude for mechanical engineering, with an interest in mechanical engineering subjects and a willingness to learn new skills in this area;
- The ability to read and interpret engineering drawings;
- Good interpersonal and verbal and written communication skills;
- Developed organisational skills with the ability to complete tasks within set time frames;
- The ability to work proactively and independently, and also as part of a wider support team;
- Excellent IT skills (particularly Microsoft packages);
- The ability to perform manual handling duties, for example as required to move laboratory equipment.

Acceptance to this position is subject to both a College and University assessment process. Due to the requirements for the apprenticeship course, **we cannot appoint anyone to this position who has a qualification in the field of mechanical engineering at level 2 or above**, or an equivalent qualification.

How to apply

You can apply for this role online; more guidance can be found on our [How to Apply](#) information. Applications should be submitted by 23.59 (UK time) on the advertised [closing date](#).
