We will consider flexible working requests

Mental Health Advisor Disability Services, Student Education Service

Are you an experienced Mental Health Advisor who ensures appropriate practical and psychological support is in place based on the Recovery Model of Mental Health? Do you want to enable students to function more effectively and fulfil their personal and academic potential?

We are looking for someone with substantial experience of providing support for people with mental health conditions (moderate to severe and enduring). If you are able to evidence the capacity to assess, monitor and manage young adults living with mental health difficulties, including crisis response, we would be interested in hearing from you - especially if you have considerable experience of working with adults diagnosed with Neurodevelopmental conditions.

Essential to this role is effective, responsive liaison with community and university student support services and delivering mental health awareness training sessions to colleagues across the University, and flexibility of working hours which may include evening hours.

What does the role entail?

As a Mental Health Advisor your main duties will include:

- Providing individual support to an allocated caseload of students with moderate to severe mental health difficulties, promoting the recovery and maintenance of positive mental health, positively promoting independent living, personal resilience and providing support with daily living skills;
- Supporting students to identify their needs and goals, through the collaborative planning, implementation and evaluation of Mental Health and Crisis Support Plans;
- Encouraging and enabling students to develop positive/effective condition management skills, working to the Recovery Model of Mental Health and goals based outcome assessment;
- Maintaining adequate records, including input to a database, participation in regular meetings and supervision sessions to discuss and review case management and complex cases;

- Carrying out initial risk assessments, identifying when further risk assessment and risk management/ harm reduction plans are required. Actively participating in formal risk assessment and Care Programme Approach as per required need and engagement with formal external Mental Health Services;
- Helping to identify early warning signs of relapse by monitoring the student's progress, level of functioning and mental state and alert the appropriate staff involved in supporting the student;
- Providing written correspondence to appropriate requests from students, schools or the Office of Academic Appeals and Regulations in regards to University processes, with consent from the individual;
- Producing correspondence for referral into external services for students identified as requiring greater access to treatment and assessment;
- Liaising with statutory and third sector providers in the provision of care for students, attending discharge planning meetings, CPA's or MDT/ professional meetings with the consent of the individual;
- Liaising with statutory services and University security services at times of crisis or emergency situations, providing a crisis response in the absence of the Mental Health Team Manager;
- Contributing to the design and delivery of training to staff, and collaborating with the Students' Union, Student Counselling Centre and Leeds Student Medical Practice to devise and facilitate mental health promotion and awareness throughout the campus;
- Networking with external providers of mental health support throughout Leeds;
- Ensuring students are treated with dignity and respect as part of ethical practice, and promoting the rights, responsibilities and recovery of students with a mental health difficulty to engender empowerment and wellbeing;
- Developing a rapport with student service users, based on respect and honesty, working at all times within clear professional, appropriate and transparent boundaries;
- Ensuring the avoidance of any discriminatory practices and to challenge discrimination and stigma wherever met;
- Participating in the review of the service to further develop and improve the service provision.

These duties provide a framework for the role and should not be regarded as a definitive list. Other reasonable duties may be required consistent with the grade of the post.

What will you bring to the role?

As a Mental Health Advisor you will have:

- Experience of providing support for people with mental health conditions (moderate to severe and enduring);
- Experience of assessing, monitoring and managing cases of young adults with mental health conditions, and experience of crisis management in relation to people with mental health conditions;
- Excellent communication skills, with an ability to listen and be non-judgemental in approach;
- Ability to demonstrate empathy, compassion and patience, dealing sensitively with individuals in distress and who may be disturbed and/or unpredictable;
- Ability to think and act calmly in challenging and stressful situations;
- Demonstrable knowledge of community services and of how to effectively build community links;
- Knowledge of everyday independent/living skills and an ability to promote these to individuals;
- Excellent organisational skills with a flexible and versatile approach to working, managing own time, caseload, and balancing priorities and deadlines effectively;
- Practical problem solving skills with an ability to use own initiative and judgement to assess situations and propose practical solutions;
- Proven ability of working as part of a team.

You may also have:

- Experience, knowledge and understanding of the academic environment, the barriers and pressures within student life and the value, purpose and identity gained from engaging within it;
- Experience of developing and delivering training sessions to people who are non-specialists in the field of mental health.
