Reference: MHCAP1171

Closing date: 24 October 2019

Available for up to 4 years or to CCT date (whichever is sooner)

[Type here]

NIHR Academic Clinical Lecturer in Medical Oncology or Obstetrics and Gynaecology or Rheumatology School of Medicine Leeds Institute of Medical Research at St James's

Do you want the opportunity to develop your existing academic experience in a supportive and inspirational environment where you can establish your clinical academic career?

Applications are invited for a NIHR Integrated Academic Training Clinical Lecturer post. The post is available for up to four years according to the clinical training needs of the successful candidate to obtain a CCT. You will join the vibrant Integrated Academic Training programme at Leeds which provides a supportive research environment to develop independent, novel research alongside your clinical specialist training leading to full registration within the specialty programme and CCT. You will be awarded a training contract with the Regional Postgraduate Dean in the specialist registrar/specialty trainee grade (or equivalent), an honorary contract with the appropriate NHS Trust and you must already be at a minimum level of ST3.

The successful candidate will spend 50% of the appointed period continuing or establishing a new research programme with 50% of the appointed period allocated to appropriate clinical training. There are opportunities to align to current research interests within the **Leeds Institute of Medical Research at St James's (LIMR)** to ongoing programmes of research in medical oncology or obstetrics and gynaecology or within the **Leeds Institute of Rheumatic and Musculoskeletal Medicine (LIRMM)** in rheumatology related research. You will undertake internationally regarded research and have the benefit of senior academic support in making grant applications, as well as independent mentoring on career progression. You will also share responsibility for delivering high quality undergraduate and postgraduate teaching programmes.

You will hold (or have submitted) your PhD/MD at the time you apply and will provide evidence that you have been fully awarded your degree by the time you take up the post. The post is located in Leeds Institute of Medical Research at St James's (LIMR) or Leeds Institute of Rheumatic and Musculoskeletal Medicine (LIRMM), University of Leeds and NHS Trust Premises including St James's University Hospital, Leeds General Infirmary and Chapel Allerton Hospital.

The successful applicant must be in post by 31 March 2020

What does the role entail?

As an NIHR Clinical Lecturer it is envisaged that five sessions of your time will be spent in innovative and scholarly research (including up to one session teaching) and for five sessions you will undertake appropriate clinical training.

Research;

You will be expected to achieve and maintain an active research portfolio both producing regular publications and developing the skills required to write successful research grant and Intermediate, Advanced or Clinician Scientist Fellowship applications. Your research output would be expected to be of international quality as judged by the Research Excellence Framework 2014 standards. You would be expected to seek external peer review funding to support your research. There may be flexibility within the particular clinical training program to allow substantial periods of research without clinical commitment rather than combining both in the working week.

Research opportunities include clinical, translational and basic research projects in the broad of themes of:

Medical Oncology

- Cancer Medicine and Pathology
- Cell Biology
- Clinical Biotherapy and Biomarkers
- Genetic Epidemiology
- Immunotherapy
- Oncolytic Virotherapy
- Molecular Genetics
- Angiogenesis
- Psychosocial and Clinical Outcomes Research
- Biological sciences
- Epidemiology
- Clinical trials
- Pharmacology
- Radiobiology and therapeutics
- Neuro-oncology

[Type here]

Obstetrics and Gynaecology

- Prediction/prevention of adverse pregnancy outcome
- Gynaecological cancer
- Modelling immune networks
- Imaging of placenta/cervix
- Interaction between nutrition and pregnancy outcome
- Endothelial biology
- Reproductive Medicine

Rheumatology

Research opportunities in Rheumatology include clinical, translational and basic research projects in the breadth of disease groups:

- Inflammatory Arthritis
- Connective Tissue Disease
- Non-Inflammatory (Osteoarthritis) conditions
- Co-morbidity (cardiovascular, peripheral muscle) associated with rheumatological diseases such as those above.

The research would be aligned with one of the five Rheumatology-based sections (of a total of eight within the Institute) and/or themes of the NIHR Leeds Biomedical Research Centre (LBRC).

Teaching;

You will be expected to contribute to the organisation and delivery of undergraduate teaching throughout your clinical and research years. The administrative, preparation time and actual teaching would not exceed the equivalent of one session each week. During clinical periods the person would be expected to undertake teaching and training commitments as expected of other Specialist Registrars in training.

Clinical Activity;

You will enter into an appropriate year within the Specialist Training Programme. Rotations include posts in Leeds and other regional centres and units to meet the full current Royal College curriculum.

What will you bring to the role?

As a NIHR Academic Clinical Lecturer;

You must demonstrate appointability under the NIHR Clinical Lectureship Academic Person Specification and the appropriate Royal College Clinical Person Specification or, in the absence of a clinical person specification, the appropriate areas of the Clinical Curriculum.

ACADEMIC PERSON SPECIFICATION - **APPENDIX 1**

Obstetrics and Gynaecology CLINICAL PERSON SPECIFICATION - **APPENDIX 2A**

Medical Oncology CLINICAL PERSON SPECIFICATION - **APPENDIX 2B**

Rheumatology CLINICAL PERSON SPECIFICATION - **APPENDIX 2C**

For further background to the post please see **APPENDIX 3**

As a qualified doctor you should obtain periodic registration with the GMC. You will be required to maintain such registration so long as you remain employed with the University of Leeds, confirming to your line manager that renewal has been carried out as required by the relevant professional organisation. You should produce documentation giving evidence of your registration upon request.

Please note: **University of Leeds terms and conditions of employment will apply**

How to apply

You can apply for this role online; more guidance can be found on our [How to Apply](#) information page. Applications should be submitted by **23.59** (UK time) on the advertised closing date.

Applications should include the following:

- A Curriculum Vitae
- A NIHR Supplementary Questions for Candidates form – **APPENDIX 4**
- A Supporting Statement addressing the academic and clinical person specifications
