

**CLINICAL RESEARCH CODER
NIHR RESEARCH DELIVERY NETWORK COORDINATING CENTRE**

Salary Grade: 6

Reporting to: Senior Portfolio Monitoring Manager

Role ID: J158

CLINICAL RESEARCH CODER

Reports to: Senior Portfolio Monitoring Manager

Overview of the Role

The University of Leeds has been chosen by the UK government to lead the National Institute for Health and Care Research (NIHR) Research Delivery Network Coordinating Centre (RDNCC) and will be joined by 12 new Regional Research Delivery Networks (RRDNs), hosted by NHS organisations across the country to form the NIHR Research Delivery Network (RDN). The new NIHR RDN will operate as one unified organisation across England, balancing regional context, expertise and leadership with national coordination and strategy involving government policymakers. The RDNCC will work across England's health and care system, with staff in all settings, to support the effective and efficient initiation and delivery of research..

You will be responsible for providing expert clinical research coding for the RDN, applying and reviewing all NIHR RDN Portfolio studies to ensure accurate HRCS and ICD codes applied to them using recognised clinical coding frameworks.

You will work collaboratively with colleagues within the RDNCC and, as required, across the RDN and the University of Leeds, and with external stakeholders in a host of settings. You will support the operational delivery of the organisation-wide shift in ways of working and culture that is required to ensure the network functions as a single organisation with a shared purpose and vision across England, as well as mutually supporting colleagues through the period of transformation and beyond.

This role may require some national travel.

DUTIES AND RESPONSIBILITIES

Common duties and responsibilities for RDNCC Grade 6 roles

Support the effective coordination and delivery of activities and projects within the function in line with organisational policies and priorities. Monitoring activities against planned timelines and outcomes, identifying issues that may affect delivery and implementing or recommending solutions.

Work as an effective member of the team, providing support to colleagues and being involved in recruitment, training and supervision of staff and proactively inputting into the function's service improvement plans and objectives.

Providing operational support and professional expertise, both within the team and to stakeholders.

Working collaboratively with RDNCC colleagues, engaging with stakeholders, and actively participating in groups and meetings in order to contribute to discussions, events and opinions to review processes, implement service improvements and support the achievement of operational objectives.

Make independent decisions about your own work and provide specialist advice and guidance to colleagues and stakeholders to resolve problems and queries and inform decision-making, including analysing and presenting data and management information.

Demonstrate a positive approach to work in terms of being focussed, flexible, professional, motivated, and personally effective.

Duties and responsibilities specific to this role

1. Provide expert clinical research coding support for the RDN to ensure all portfolio studies have accurate HRCS and ICD codes applied to them using recognised clinical coding frameworks.
2. Establish robust monitoring processes to check that studies across the NIHR RDN Portfolio have been coded correctly using recognised clinical coding frameworks, making recommendations for improvement and implementing changes to processes relating to coding.
3. Identify training needs/gaps in clinical research coding knowledge across the RDN and provide guidance, expert advice and training on clinical coding and allocation of HRCS codes as required including designing training materials and writing guidance documents.
4. Keep up-to-date with policies and procedures around clinical coding and ensure a current and thorough knowledge of the Health Research Classification System (HRCS), coding frameworks and clinical research coding across all specialties, and be

proactive to suggest and implement improvements to processes to enable better reporting.

Other duties

These duties provide a framework for the role and should not be regarded as a definitive list. Other reasonable duties may be required consistent with the grade of the post.

KNOWLEDGE, SKILLS, AND EXPERIENCE

Essential requirements for all RDNCC grade 6 roles

- The ability to positively support organisational change and transformation programmes in the way you approach your work and to provide mutual support and motivation to colleagues.
- A proven ability to work proactively and independently, using own initiative and to solve problems efficiently and professionally.
- Organisation skills with the ability to work flexibly to plan and prioritise work, deliver to deadlines and manage competing demands.
- Interpersonal skills with the ability to work collaboratively and develop and maintain effective working relationships with colleagues and stakeholders.
- Written and verbal communication skills with the ability to articulate information in an engaging way to diverse audiences.
- The ability to analyse and present data in a meaningful and engaging way.

Essential requirements specific to this role

- Significant knowledge and expertise in clinical research coding within a healthcare environment, across all specialties.
- In depth knowledge and understanding of the Health Research Classification System (HRCS) and ICD coding frameworks.
- Have a sound medical knowledge across all specialities and clinical medical terminology with the ability to translate it to appropriate clinical coding.

Additional information

NIHR Research Delivery Network

The National Institute for Health and Care Research (NIHR) is funded by the Department of Health and Social Care (DHSC). NIHR works in partnership with the NHS, universities, local government, other research funders, patients and the public. The NIHR funds, enables and delivers world-leading health and social care research that improves people's health and wellbeing and promotes economic growth. NIHR is a major funder of applied health research in low and middle-income countries. Further information on the NIHR can be found at www.nihr.ac.uk.

As part of NIHR, the Research Delivery Network (RDN) supports the effective and efficient initiation and delivery of funded research across the health and care system in England for the benefit of patients, the health and care system and the economy. The scope and purpose of RDN is to support:

- Clinical trials and other well-designed health and social care research studies (including studies that are delivered outside of an NHS setting).
- Public health studies that require the recruitment of individuals within an NHS setting (that is, acute, ambulance, mental health, community, or primary care) or an episode of care which involves contact with the NHS.

The whole of England will be supported through 12 NIHR Regional Research Delivery Networks (RRDNs). The RRDNs will work with the national Research Delivery Network Coordinating Centre (RDNCC) to provide a joint RDN leadership function so that the NIHR RDN as a whole functions as a single organisation with a shared vision and purpose across England.

The University of Leeds is the provider of the RDNCC, working with and on behalf of DHSC. The University will be the employer for this role.

University of Leeds

Inclusion

At the University of Leeds, we are committed to providing a culture of inclusion, respect and equity of opportunity that attracts, supports, and retains the best students and staff from all backgrounds. Whatever role we recruit for we are always striving to increase the diversity of our community, which each individual helps enrich and cultivate.
