

**UNIVERSITY OF LEEDS**

## **CANDIDATE BRIEF**

**Solutions Architect, IT**

**Salary: Grade 8 (£39,992 – £47,722 p.a.)**

**Reference: CSUIT1167**

## **Solutions Architect IT, Corporate Services**

**Are you a highly skilled, delivery focused Solutions Architect with experience of contributing to successful business change programmes? Do you have exceptional Business and IT Systems architecture skills? Are you interested in supporting the delivery of the University's digital transformation?**

We are looking for an experienced Solutions Architect to join the IT Services team during an exciting period of change.

As part of the University's Strategy and Architecture team you will play a key role in supporting programme and project delivery. The current portfolio of IT delivery work spans our Web, ERP, MI, Student and Research information systems. We also have significant programmes of investment across the IT enablers including our Data Centres, Networks, Storage and Compute infrastructure. Alongside this we will be changing the way we support Identity and Cyber Security management.

As a Solutions Architect you will help realise the benefits of these investments by taking a lead role in project delivery, the analysis of requirements and in the development of appropriate business and IT architectures.

If you thrive working in a complex and varied environment this is an exciting opportunity for you to make a real difference in a world class organisation.

### **What does the role entail?**

As a Solutions Architect, your main duties will include:

- Taking the lead role in the analysis of project requirements and the development of appropriate business and IT architectures;
- Developing innovative methods for exploiting new and existing platform capabilities;
- Supporting the development and definition of IT standards and ensuring alignment with these as part of project delivery;
- Providing projects with support and assurance to ensure compliance with legal and regulatory requirements;
- Identifying and reporting delivery issues and risks as appropriate and working

to mitigate or minimise impacts;

- Maintaining good relationship with project teams, internal and external customers and suppliers in order to ensure effective and efficient solutions are delivered;
- Maintaining good relationship with project teams, internal and external customers and suppliers in order to ensure effective and efficient solutions are delivered.

## What will you bring to the role?

As a Solutions Architect you will have:

- Experience of leading successful project delivery in a large organisation as either an architect or design lead;
- Experience of architecture assessment and definition of business applications and infrastructure design and migration in complex environments;
- Excellent understanding and experience of applying architectural principles across business applications, infrastructure and cloud technologies, including assurance of regulatory, legislative and industry practices;
- Experience of effectively analysing problems and data, presenting solutions, and information in a meaningful way to diverse range of stakeholders;
- Excellent communication skills, including the ability to articulate changes to business processes to stakeholders with differing levels of technical knowledge and the ability to influence the outputs of others you are not directly responsible for;
- Experience of working to deadlines, prioritising a complex range of tasks to ensure delivery in a role which has made competing demands on your time.

You may also have:

- A degree in a technical or computer related subject;
- TOGAF or BCS Architect certification.

## How to apply

You can apply for this role online; more guidance can be found on our [How to Apply](#) information page. Applications should be submitted by **23.59** (UK time) on the advertised closing date.
